

## WHAT JOY THEY BRING TO FVERY HOME

as with joyous hearts and smiling faces they romp and play—when in health—and how conducive to health the games in which they indulge, the outdoor life they enjoy, the cleanly, regular habits they should be taught to form and the wholesome diet of which they should partake. How tenderly their health should be preserved, not by constant medication, but by careful avoidance of every medicine of an injurious or objectionable nature, and if at any time a remedial agent is required, to assist nature, only those of known excellence should be used; remedies which are pure and wholesome and truly beneficial in effect, like the pleasant laxative remedy, Syrup of Figs, manufactured by the California Fig Syrup Co. Syrup of Figs has come into general favor in many millions of well informed families, whose estimate of its quality and excellence is based upon personal knowledge and use.

Syrup of Figs has also met with the approval of physicians generally, because they know it is wholesome, simple and gentle in its action. We inform all reputa-ble physicians as to the medicinal principles of Syrup of Figs, obtained, by an original method, from certain plants known to them to act most beneficially and presented in an agreeable syrup in which the wholesome Californian blue figs are used to promote the pleasant taste; therefore it is not a secret remedy and hence we are free to refer to all well informed physicians, who do not approve of patent medicines and never favor indiscriminate self-medication.

Please to remember and teach your children also that the genuine Syrup of Figs always has the full name of the Company-California Fig Syrup Co.-plainly printed on the front of every package and that it is for sale in bottles of one size only. If any dealer offers any other than the regular Fifty cent size, or having printed thereon the name of any other company, do not accept it. If you fail to get the genuine you will not get its beneficial effects. Every family should always have a bottle on hand, as it is equally beneficial for the parents and the children, whenever a laxative remedy is required.

INVESTMENT IN MOTH BALLS

Manner of Using the Preventive

That Proved to Be a Signal

Failure.

A State street druggist, telling of the

quaint characters whom he encounters

in his business, recently said: "Late

one afternoon one of the 'ould sod'

ambled up to the counter. 'Hov yez onything good to kill moths?' he asked, relates the Chicago Record-Herald.

"'Yes,' said I, 'we have moth balls,

" 'Give me tin cints' worth, thin,'

"I made up the package, handed it to

him, and he ambled out again. I had forgotten all about my customer until

about four o'clock the next afternoon,

when I was forcibly reminded of the

transaction of the day before. After

I had waited on my customers in their

turn I walked over to another coun-

ter and was there confronted with my moth-ball investor. Without giving me time to make an inquiry, he said:

"'Are yez the young mon that sold

me thim things yistiddy?' showing me

the remains of about half a dozen of

"I answered in the affirmative, and

"'Av all the con games I've run up

against in me toime, this bates thim

all,' he said. 'To think of onyone run-

ning a decent down-town store selling

the lolkes of thim things to kill moths

with, or onything else, for the matter

of that. They might be all right for

playing marbles, but for killin' moths,

niver. I may not be as young as yez

are, young mon, but I'm just as stiddy,

and I want to tell you wan thing. If

yez can show me the man or woman

that can throw wan of thim balls

quick enough to kill a moth I'll not

only ate iviry wan of thim yez have

in stock, but I'll say nothing about

QUEER DOINGS OF MEN.

A man will always stir his coffee before drinking it. This is very foolishhe should taste it first to see if it needs

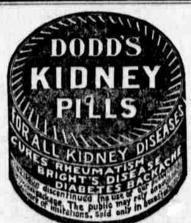

A man subjects the point of his per to careful scrutiny before commencing to write a letter. A woman starts right off-jabs her pen in the inkpot and straightway begins to scribble as if her life depended on it.

Few men open their personal correspondence without looking at the postmarks to see the time of posting. Women on the other hand, tear open the envelope at once-they are in too much of a hurry to waste any time.

It is the man who lets out secretsnot by telling them, but by ill-timed silences. He does worse-by refusing to gratify the curiosity of his questioners he invariably causes them to jump to conclusions much more damaging than the truth of the matter.

It is the man who reads with his back to the light, holding his book in one hand, Herein lies wisdom. woman rests her book on the table and leans both elbows thereon. But the foolishness of the man's act lies in the fact that he is seeking comfort and seldom takes this position because it is the most scientific one. Of course, he finds it isn't comfortable-his arm aches after the first ten minutes, whereupon he puts his book down and remarks he is going out.

The mare is by no means singular. Everything goes, where money is the motive.-Puck.

TEETH THAT WERE USELESS

Puzzle to the Man Who Had Suddenly Sustained the Loss of Them.

Harry Leon Wilson, author of "The Spenders," was domiciled for a summer in Connecticut with a colony of artists and writers, all of whom had to go into the city every day, relates the Saturday

Wilson was doing nothing but loaf-"Now, what us gwine do bout dis ing. He loafed artistically, and from time to time met and had fun with some of the natives of the place. One day he found two men in the road who seemed convenial and he struck up an acquaintance with them. He proposed a drive and they got a surrey and two horses.

"Can you drive?" asked Wilson. "Sure." one of his sudden friends re-

plied, "I am a fine driver." They got aboard and started down the road. Before they had gone half a mile the team was frightened by a passing automobile and ran away. The driver valiantly steered the horses into a telegraph pole and Wilson and his two friends were thrown helterskelter into the road.

Wilson slowly gathered himself together. One of his friends was sitting in the ditch rubbing his bruises and the other stood in the middle of the road gazing in tearful misery at two front teeth which he held in the palm of his hand.

"Pretty lucky escape, wasn't it?" asked Wilson, for want of something better to say.

"Yes," replied the man with the teeth, weeping afresh, "but please, oh, please, tell me, what shall I do with

"They're too hard on my stomach."

ALL HAIL PE-RU-NA.

Miss Mary O'Brien, 306 Myrtle Ave., Brooklyn, N. Y., writes: "Peruna cured me in five weeks of catarrh of the stomach, after suffering for four years and doctoring without effect. In common with other grateful ones who have been benefited by your discovery, I say, All hall to Peruna."

Mr. H. J. Henneman, Oakland, Neb.

rrites:
"I waited before writing to you about

"I waited before writing to you about my sickness, catarrh of the stomach, which I had over a year ago.

"There were people who told me it would not stay cured, but I am sure that I am cured, for I do not feel any more ill effects, have a good appetite and am getting fat.

"So I am, and will say to all, I am cured for good.

"I thank you for your kindness.

"Peruna will be our house medicine hereafter."

Catarrh of the stomach is also known.

Catarrh of the stomach is also known in common parlance as dyspepsia, gas-tritis and indigestion. No medicine will be of any permanent benefit except it removes the catarrh.

A Great Tonic.

Mr Austin M. Small. Astoria, Ore., writes: "During the hot weather of the past summer I lost my appetite. I tried Peruna, and found it pleasant to take, a splendid appetizer and a great tonic."

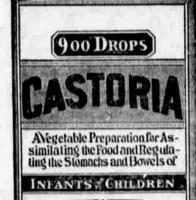

W. N. U., Salt Lake City, No. 26, 1906

## Save the Babies.

NFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twentytwo per cent., or nearly one-quarter, die before they reach one year; thirtyseven per cent., or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium, or morphine. They are, in considerable quantities, deadly poisons. In any quantity they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and allays fever.

## Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. A. F. Peeler, of St. Louis, Mo., says: "I have prescribed your Castoria in many cases and have always found it an efficient and speedy remedy." Dr. E. Down, of Philadelphia, Pa., says: "I have prescribed your Castoria in my practice for many years with great satisfaction to myself and benefit to my patients."

Dr. J. E. Waggener, of Chicago, Ill., says: "I can most heartly recommend your Castoria to the public as a remedy for children's complaints. I have tried it and found it of great value." Dr. Edward Parrish, of Brooklyn, N. Y., says: "I have used your Castoria in own household with good results, and have advised several patients to use it its mild laxative effect and freedom from harm."

Dr. J. B. Elliott, of New York City, says: "Having during the past six years prescribed your Castoria for infantile stomach disorders, I most heartly commend its use. The formula contains nothing deleterious to the most delicate of children." Dr. C. G. Sprague, of Omaha, Neb., says: "Your Castoria is an ideal medicine for children, and I frequently prescribe it. While I do not advocate the indiscriminate use of proprietary medicines, yet Castoria is an exception for conditions which arise in the care of children."

Dr. J. A. Parker, of Kansas City, Mo., says: "Your Castoria is all exception for conditions."

which arise in the care of children."

Dr. J. A. Parker, of Kansas City, Mo., says: "Your Castoria holds the esteem of the medical profession in a manner held by no other proprietary preparation. It is a sure and reliable medicine for infants and children. In fact, it is the universal household remedy for infantile aliments."

Dr. H. F. Merrill, of Augustn, Me., says: "Castoria is one of the very finest and most remarkable remedies for infants and children. In my opinion your Castoria has sayed thousands from an early grave. I can furnish hundreds of testimonials from this locality as to its efficiency and merits."

Dr. Norman M. Geer, of Cleveland, Ohio, says: "During the last twelve years I have frequently recommended your Castoria as one of the best preparations of the kind, being safe in the hands of parents and very effective in relieving children's disorders, while the ease with which such a pleasant preparation can be administered is a great advantage."

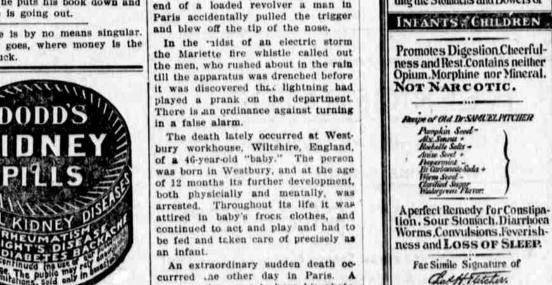

is a great advantage."

Dr. F. H. Kyle, of St. Paul, Minn., says: "It affords me pleasure to add my name to the long fist of those who have used and now endorse your Castoria. The fact of the ingredients being known through the printing of the formula on the wrapper is one good and sufficient reason for the recommendation of any physician. I know of its good qualities and recommend it cheerfully."
